DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Wheat Crop of Bengal, 1929-30.

Dacca, the 10th May 1930.

(*Note.*—On an average of the five years ending 1927-28, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1927-28, averaged at (*a*) 36·9 and (*b*) 11·4 per cent., respectively.)

Character of the season.—In the third forecast issued in April last the weather was reviewed as having been satisfactory for the province. Since then conditions have remained practically unchanged except in the important district of Malda, where insufficient rainfall at the time of maturity somewhat reduced the outturn.

Acreage.—According to the estimates of District Officers, the total area sown is 126,200 acres this year as against 122,900 acres last year.

Outturn.—The provincial outturn as worked out from the district estimates is 81 per cent. of the normal as against 80 per cent. last year. Taking the normal yield to be 8¾ maunds per acre, the gross yield of the crop for the province is estimated at 32,900 tons this year as against 31,600 tons or about 4 per cent. higher than last year.

At the end of April the average wholesale price of wheat at the principal marts of the province was Rs. 6-8-8 per maund or about 6 per cent. lower than the price ruling at the corresponding period of last year. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 6-0-10 per maund or about 4 and 19 per cent. lower than the prices ruling at the corresponding periods of last year and the year preceding, respectively.

Director of Agriculture, Bengal.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1929-30.

Dacca, the 12th May 1930.

(*Note.*—On an average of the five years ending 1927-28, the area under linseed in Bengal has represented some 3·2 per cent. and that under rape and mustard 11·7 per cent. of the total area under these crops in British India.)

Character of the season.—As reported in the second forecast wet weather in October somewhat interfered with the sowing operations in parts of North Bengal. Subsequent dry weather was helpful to the growth. Winter rain generally improved the prospects of late crops. On the whole a satisfactory outturn was reaped.

Acreage.—Oilseeds are principally grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is estimated at 868,300 acres this year as against 884,300 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 85 per cent. of the normal as against 79 per cent. last year.

Taking 5¾ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 158,700 tons this year as against 149,400 tons or about 6·2 per cent. higher than last year.

The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape will be carefully gathered in during the process, and when the minimum measurement is reached it will be recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded. In all doubtful cases the functional capacity of the lungs may be tested by means of the spirometer. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective

RESOLUTION—No. 2082Pl.

Read—

Report of the Special Officer appointed to make an enquiry into the grievances of carters.

In their *communiqué*, dated the 26th October 1929, the Government of Bengal announced the action which they proposed to take in future under the Bengal Cruelty to Animals Act (Bengal Act I of 1920) to prevent cruelty to draught buffaloes regarding which there had been considerable agitation, the history of which was given in the above *communiqué*. The decisions arrived at were that (*1*) the use of buffaloes as draught animals should not be allowed between the hours of 12 noon and 3 p.m. during the months of April to September with effect from the 1st April 1930, and (*2*) from the same date the maximum load inclusive of the cart for a two-wheeled cart drawn by two buffaloes was to be reduced from 60 maunds to 45 maunds and for a two-wheeled cart drawn by one buffalo from 25 maunds to 20 maunds. In accordance with that decision notifications Nos. 595 Pl., and 604 Pl., dated the 8th February 1930, were issued under the Bengal Cruelty to Animals Act (Bengal Act I of 1920) introducing the above prohibited period and the change in the maximum weights of the loads with effect from the 1st April 1930.

2. These decisions were arrived at on the basis of the advice given by the then Government Veterinary Adviser and of certain statements of fact made in a representation received from the Calcutta Society for the Prevention of Cruelty to Animals and in a petition presented by a deputation which approached Government in January 1928, the petition containing 16,078 signatures from every caste, creed and nationality in Bengal, and the sole object Government had in view in arriving at these decisions and issuing these orders was to prevent cruelty to buffaloes as draught animals in Calcutta.

3. The above notifications were to take effect from the 1st April 1930, but on that date there was serious rioting by the carters of Calcutta as a protest against these orders and on the 5th April 1930 Government gave an undertaking to the representatives of the carters that Government would make an enquiry into their grievances provided certain conditions were fulfilled. The conditions having been fulfilled Government appointed Mr. W. S. Hopkyns, C.I.E., O.B.E., I.C.S., a Special Officer, to enquire into the grievances of the carters so far as they related to matters under the direct control of Government, and they directed him to make a full enquiry and to submit his report and recommendations as early as possible.

4. Government have now received the report of the Special Officer together with his recommendations, and they are satisfied that the facts elicited during the enquiry make it necessary to revise the decisions announced in the *communiqué* of the 26th October 1929.

5 For from the report of the Special Officer it appears that there is considerable difference of opinion among veterinary experts regarding the degree of cruelty involved in working buffaloes in Calcutta as draught animals and regarding the load which can properly be deemed to be excessive. There is general agreement, however, that it is heat which is the chief cause of the distress of the cart buffaloes and that it is necessary to prohibit the working of these animals during the middle of the day at least during the months of April and May and in June until the rains break.

6. In a letter, dated the 11th June 1927, the Calcutta Society for the Prevention of Cruelty to Animals informed Government that the average life of a buffalo used for carting was six months, and this statement was repeated in the petition presented to Government in January 1928 by a deputation which approached Government on the subject of the prevention of cruelty to buffaloes. The Special Officer has reported that he had an investigation made to see how far these statements of fact which were in part the basis of the decisions taken by Government not only to prohibit the working of buffaloes between certain hours during certain periods of the year but also to reduce the maximum load were correct. This investigation has shown that although many animals may die in six months or less from contagious diseases and other similar causes the statement made by the Calcutta Society

for the Prevention of Cruelty to Animals and the memorialists that the average life of a cart buffalo is six months is incorrect. On the other hand the statement made by the carters that the animal works for nine or ten years was found to be most certainly exaggerated. The final conclusion of the Special Officer is that there is no doubt that a buffalo which escapes death from contagious diseases and such causes ordinarily survives for a number of years.

7. An investigation was also made into the amount of the maximum load that could be pulled without undue strain by a pair of buffaloes in good condition and it was found that a load of 60 maunds including the weight of the cart was not excessive and did not in itself involve cruelty.

8. The Special Officer has, therefore, recommended that the orders issued in February 1930 should be revised and that the maximum load including the weight of the cart for a cart drawn by two buffaloes should remain at 60 maunds and that it is unnecessary to enforce the stoppage between 12 noon and 3 p.m. save during the months of April and May and in June until monsoon conditions are established. In periods of excessive heat it might also be necessary to have a period of stoppage during the month of September.

9. After careful consideration the Government of Bengal have decided that as their previous decisions were based on data the correctness of which they had previously no reason to question but which now appear to have been incorrect, the orders issued in notifications Nos. 595 Pl. and 604 Pl., dated the 8th February 1930, shall be modified and that revised notifications shall issue prescribing (*1*) that the maximum weight of the load to be carried in a two-wheeled cart drawn by two buffaloes shall be 60 maunds and in similar carts drawn by one buffalo 25 maunds, (*2*) that the prohibited period for the employment of buffaloes as draught animals will be between the hours of 12 noon and 3 p.m. during the months of April and May and in June until the rains break. The date on which this prohibition will cease to be in force will be announced each year by a notification. To avoid uncertainty as far as possible they have decided not to make any provision for a period of stoppage during excessive heat in September.

10. The Special Officer has also recommended that a committee shall be appointed to investigate the following questions:—

(*i*) Whether the arrangements for resting and parking places for buffaloes and carts during the midday stoppage are adequate and consistent with the convenience of traffic, and if not, what action should be taken?

(*ii*) Is adequate accommodation provided for carts at the principal places where carts get their loads and if not, what improvements are required?

(*iii*) Is it possible to secure the earlier delivery of goods at the jetties, railway goods sheds and similar places, with special reference to the difficulty caused by the late attendance of sarcars and other agents?

This recommendation has been accepted by Government, but they have decided to postpone the appointment of the committee until later in the year. A separate resolution will be issued at a later date announcing the personnel of the committee and the terms of reference.

11. The Government of Bengal acknowledge the care and ability with which the Special Officer Mr. W. S. Hopkyns, C.I.E., O.B.E., I.C.S., has carried out the enquiry entrusted to him, and thank him for the valuable and interesting report submitted by him and for the full statement of facts which has enabled Government to modify the orders previously passed in error and to remedy the legitimate grievances of the owners and drivers of buffalo carts in Calcutta.

Order.—Ordered that the resolution be published in the *Calcutta Gazette* and that copies of it be forwarded to the (1) Secretary and Superintendent, Calcutta Society for the Prevention of Cruelty to Animals. (2) Commissioner of Police, Calcutta, (3) Chief Presidency Magistrate, Calcutta, (4) District Magistrate, 24-Parganas, (5) Commissioner of the Presidency Division, (6) Agriculture and Industries Department of this Government, (7) Judicial Department of this Government and (8) Local Self-Government Department of this Government, for information.

By order of the Governor in Council,

Chief Secy. to the Govt. of Bengal (offg.).

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holdings, when such annual value is not less than Rs. 150, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for *domestic purposes only*, subject to the following rules and conditions:—

NOTE.—These rules shall not apply to connections made to railway or commercial concerns, for which special provisions shall be made in each case by the Commissioners at a meeting, subject to the approval of Government.

1. The owners or occupiers of masonry buildings requiring water to be laid on to such buildings for domestic purposes, or requiring any addition or alteration to the existing connecting pipes or taps, must apply for the same on a printed form, prescribed by the Commissioners.

2. A fee of Rs. 100 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe, laid in accordance with rule 3, before any work is commenced, such fee being in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply-pipe, and extension from the communication-pipe of one holding to another holding shall not be permitted.

Provided that, with the approval of the Commissioners in meeting, connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in street or a common passage, and a stop-cock and meter, as provided for in rule 7, must be fixed on the connection to each holding.

Provided also that no holding shall have more than one separate connection.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in or repairs to road, drains, sewers, water-mains or pipes and the cost of such other works, as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into satisfactory condition, or which may be necessitated by any change in the municipal water-works, or system of distribution, or by the defective condition of the connection, or any part thereof, or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding, in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) In either case the works must be done under the supervision of an officer appointed by the Commissioners in this behalf, and no connection must be made with the municipal water-main, except at such time as may be fixed, and in such position as may be selected by the aforesaid officer.

7. A holding connection shall comprise the following parts or fittings:—

(*a*) A brass or gun-metal ferrule inserted in the main supply-pipe.

(*b*) A galvanised iron communication-pipe from the ferrule to the meters.

(*c*) A stop-cock and its surface-box.

(*d*) A meter, as approved by the Commissioners.

(*e*) Service-pipes from the stop-cock to the tap.

(*f*) Taps.

8. (*1*) All the fittings, referred to in rule 7, shall be exact duplicate of standard samples kept in the office of the Commissioners, and approved by them at a meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality authorised for the purpose, before being fixed.

(*3*) If any owner or occupier desire to adopt any fitting of a pattern different from the standard patterns, he must present such fittings for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a presure of *100 feet*, and no water shall be supplied until this test has been applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7 and the number of taps shall be fixed in accordance with the annual valuation of the holdings, as follows:—

Annual valuation.				Size of ferrule.	Diameter of communication-pipe.	Number of taps.
	Rs.		Rs.	Inch.	Inch.	
From	150	to	299	¼	½	2
„	300	„	499	¼	½	3
„	500	„	1,199	⅜	¾	4
„	1,200	„	1,999	½	1	5
„	2,000	„	5,999	¾	1	6

From Rs. 6,000 and over an extra tap for every additional Rs. 2,000 or part thereof, and when necessary, with the approval of the Commissioners in meeting, a corresponding increase in the size of ferrule and in the diameter of the connection pipe may be allowed.

11. (*1*) On every communication-pipe a brass or gun-metal stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(*3*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

(*4*) Whenever a communication-pipe is laid across a sewer or open drains or in any place where, in the opinion of the Commissioners, it is liable to injury, such pipe must pass through an exterior cast-iron pipe of sufficient length and strength to afford protection to it.

12. (*1*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*2*) The meter must be fixed in a brick chamber covered over with a cast-iron surface-box of approved pattern.

(*3*) Subject to the provisions of rule 14 no meter must be touched or interfered with in any way, except with the permission of the Commissioners.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least 24 hours beforehand. The hour at which the reading is to be recorded shall be stated in the notice. If the owner or occupier of a holding or his agent is not present on the spot, at the appointed hour, the reading, taken by the officer deputed by the municipality, will be binding on such owner or occupier.

15. In the event of a meter ceasing to register the quantity of water consumed during the period the meter stopped will be calculated on the average consumption of the holding for the last four quarters.

16. (*1*) Every owner or occupier of any building, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(*a*) 1,800 gallons of water per quarter for each four annas, and

(*b*) a further proportionate quantity of water per quarter for every additional four annas or a fraction thereof, paid by him quarterly as water-rate in respect of such holding.

(*2*) For all water in excess of the amount allowed under sub-rule (*1*) each owner or occupier shall be charged quarterly as follows:—

(*a*) For any excess quantity of water not exceeding one-half of the prescribed quantity as in sub-rule (*1*)—6 annas per 1,000 gallons.

(*b*) For any excess quantity of water exceeding one-half of the prescribed quantity, but not exceeding that quantity—12 annas per 1,000 gallons.

(*c*) For any excess quantity of water exceeding the full prescribed quantity as noted in sub-rule (*1*)—Re. 1-8 annas per 1,000 gallons.

or any multiple thereof according to the quantity in excess.

'In accordance with Rule 10 of the Rules of Management, the Governing Body made a formal inspection of the Training Ship "Dufferin," on March the 25th, prior to their sixteenth meeting, when the following were present:—

Rear Admiral H. T. Walwyn, C.B., D.S.O., R.N., *Chairman.*
Sir Leslie Hudson, Kt.
M. A. Master, Esq., B.A., LL.B.
Kaikobad Cowasjee Dinshaw, Esq., J.P.
Syed Munawar, Esq., B.A., J.P., M.L.C.
R. H. Beckett, Esq., C.I.E., I.E.S., D.P.I.
Walchand Hirachand, Esq., C.I.E.

2. There were 97 cadets in training.

3. The health of the cadets was good, though just previously there had been a mild outbreak of influenza. All had recovered on board, except one cadet. This boy had been placed in hospital ashore, and was convalescent.

4. The shade deck had been painted green to lessen the glare and this alteration was a decided improvement. The "Dufferin" had been dry docked in January, for bottom-cleaning and removal of the propeller blades.

5. The site for a workshop on the Port side of the Main deck for the cadets had been cleared and was in partial use as a carpenter shop prior to the erection of the workshop.

6. The "Dufferin" was in clean and hygienic condition, with the small number available for upkeep it is highly creditable to see how well the ship is kept.'

[P. O. Survey School, district Tippera.]

Admission Rules.

The Bengal Survey School is a Government institution under the administrative control of the Director of Industries, Bengal. It is situated on the Mainamati Hills, in the district of Tippera, four miles west of the Comilla railway station, on the Assam-Bengal Railway. The Dacca-Chittagong Trunk Road runs close to the site of the school. It is healthily situated and occupies a picturesque site.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The school, which is ranked as a major institution, is affiliated to the Survey Education Advisory Board, Bengal, for the Survey Final and the Amin Examinations.

4. In addition to the ordinary course, the school trains special students who do not intend to earn their living as Surveyors but wish to receive training in surveying; also candidates for appointment as district kanungos or any Government official rank.

5. The total number of admission to the first year course is limited to 50, of whom not more than 10 may be special students; for the second year course not more than 30 shall be admitted in any one year, and not more than 5 of these may be special students.

6. The full course of instruction extends over two years. The session for the first year course, which corresponds to the Amin standard, begins from the 1st August and terminates on the 31st July of the following year. The session for the second year or the Survey Final course, begins from the re-opening day of the school after the Durga Puja holidays or from such date as may be notified by the Principal, not later than 1st November. The second year course also runs for twelve months. No student shall be admitted, or, in case of reinstatement after removal of his name from the school books, be re-admitted after the expiry of one month from the opening of the session, or from the date of removal of his name, as the case may be.

7. Applications for admission to the first year course must be submitted to the Principal on or before the 30th June. Applications for admission to the second year course must be submitted on or before the 30th September or such other date as may be notified by the Principal. The limit of age for the candidates seeking admission to second year is below 22. The Director of Industries, Bengal, may make exceptions to this rule.

The restriction of age does not apply in the case of special students. But they should have the minimum educational qualification of regular students.

12. The school has no vacation like other educational institutions, but it remains closed on executive holidays granted by Government.

13. The school was established on a residential basis and the students are required to reside in the hostels attached to the school. The students may live with their parents or approved guardians with the special permission of the Principal; but such permission may be withdrawn at any time.

No. 736-S.—The following statement is published for general information:—

A statement by His Excellency the Governor General of the reasons which have moved him in exercise of the powers conferred upon him by section 72 of the Government of India Act to make and promulgate an Ordinance to make provision against certain forms of intimidation under the title of the Prevention of Intimidation Ordinance, 1930.

H. W. EMERSON,
Secy. to the Govt. of India.

STATEMENT.

From the beginning of the civil disobedience movement it has been part of the programme of the Congress to use for various purposes the methods of picketing in order to make their will prevail. At the recent meeting of the Working Committee of the All-India Congress Committee held at Allahabad, resolutions were passed which urged the adoption of such methods on more intensive lines. The information received by my Government makes it plain that activities of this kind are now being pursued in various places in such a manner as gravely to interfere with the liberty of individuals in many directions.

2. The most common object with which picketing and other kinds of molestation and intimidation are being employed is for the purpose of preventing the sale of foreign goods or of liquor. It is no part of the duty of my Government, and certainly it is not their desire, to take steps against any legitimate movements directed to these ends. They are anxious to see the promotion of indigenous Indian Industries, and it is perfectly legitimate for any person, in advocacy of this object, to urge the use of Indian goods to the utmost extent of which Indian industry is capable. Nor have I anything but respect for those who preach the cause of temperance.

But what is not legitimate is for those who desire these ends, proper as they are in themselves, to pursue them by means amounting in effect to intimidation of individuals, and to endeavour to force their views on others, not by argument but by the coercive effect of fear. When resort is had to such methods it becomes necessary for Government to protect the natural freedom of action of those who may wish to sell and those who may wish to buy.

3. Unscrupulous efforts are also being made by the organisers of the civil disobedience movement to bring pressure to bear on Government servants to resign their posts or fail in their duty. The methods employed include, not only various forms of molestation and intimidation, but also definite attempts to use the weapon of boycott against Government servants. Thus it is found that in different parts of the country, not only are the residences of Government servants picketed and they themselves and their relatives subjected to threats of injury to life or property, but organised attempts are made to refuse them necessary supplies, the use of transport and the tenancy of houses. These methods have reached their maximum intensity in Gujerat, but they are also being practised in other parts of the country.

4. In normal circumstances when intimidation is a comparatively rare offence the ordinary law suffices. But when, as now, intimidation in its various forms is carefully organised and constitutes an important part of the programme of a movement designed to paralyse the Government and to coerce the public, it is necessary to see that powers should be adequate to deal rapidly and effectively with a menace to the public liberty. I have accordingly thought it essential to promulgate an Ordinance which is designed to protect the public in

general against molestation and intimidation and to check the boycott of Government servants. These powers will not be used to impede or interfere with the legitimate promotion of any economic movement which has for its object the furtherance of indigenous enterprise, nor will they be exercised in regard to any genuine labour dispute unconnected with political objects. The Ordinance is directed only against certain illegitimate activities which are being organised by the leaders of the civil disobedience movement. It will be withdrawn as soon as those activities cease. The Ordinance, moreover, has been so drafted as to be applied only where the powers are actually required. It will not be applied to any province in which the local Government has not satisfied my Government that the activities of the civil disobedience movement have rendered its application necessary. Further, within a province, the powers to deal with molestation or with the boycott of Government servants will come into force only in those areas in which the local Government considers that the situation necessitates their application. But where the situation so demands, I have no doubt that it is my duty to empower local Governments to give protection to those who merely desire to carry on their lawful business and pursuits without let or hindrance, and to safeguard public servants, as far as may be, against the attempt to deprive them by means of boycott of the ordinary requirements of daily life.

(*a*) any newspaper or book as defined in the Press and Registration of Books Act, 1867, or XXV of 1867.

(*b*) any document,

wherever made, appears to the Local Government to contain any matter the publication of which is punishable under section 3, the Local Government may, by notification in the local official Gazette, stating the grounds of its opinion, declare every copy of the issue of the newspaper containing such matter, and every copy of such book or other document to be forfeited to His Majesty, and thereupon any police-officer may seize the same, wherever found in British India, and any Magistrate may by warrant authorise any police-officer not below the rank of sub-inspector to enter upon and search for the same in any premises where any copy of such issue or any such book or other document may be or may be reasonably suspected to be.

(*2*) In sub-section (*1*) "document" includes also any painting, drawing or photograph, or other visible representation.

(*3*) An order of forfeiture under sub-section (*1*) shall be deemed to be an order of forfeiture under section 99A of the Code of Criminal Procedure, 1898, and sections 99B, 99C, 99D, 99E, 99F and 99G shall apply thereto, with such modifications as may be required to adapt them to the provisions of this Ordinance. H. W. EMERSON,

Secy. to the Govt. of India.

STATEMENT.

At the meeting of the Working Committee of the All-India Congress Committee held recently at Allahabad a resolution was passed to the effect that the time had arrived for the inauguration of a no-tax campaign by non-payment of specified taxes in certain provinces. Previous to the passing of this resolution a movement for the refusal of the payment of land revenue had been started in certain districts of Gujerat in the Bombay Presidency, and attempts had been made in several other provinces to persuade revenue and tax payers to withhold the payment of their liabilities. The decision above referred to clearly contemplates a wide extension of the civil disobedience movement in the shape of an appeal to the masses which must if successful involve grave reactions upon the administration and the stability of the State.

2. The taxes against which the movement is at present aimed are sources of provincial revenue, and their non-payment would deprive Local Governments of a considerable part of the resources on which they depend for the efficient conduct of the reserved and transferred departments. Were the programme of the Congress to meet with any appreciable measure of success, its first result would be to deprive the people of the advantage of the beneficent activities in which Local Governments are now engaged. It is clear, however, that no Government can tolerate the non-payment of its dues and that the Local Governments, confronted with a challenge of this nature, must exercise to the full the powers of realisation with which they are by law invested. The consequences will inevitably be suffering and distress to those who respond to the incitements of the Congress. Thus, both in the interests of the State and of the persons whom it is the design of the Congress to lead astray it is necessary to stop in its initial stages a movement so fraught with dangerous consequences.

3. While the law gives powers to proceed against persons who refuse to discharge their public liabilities, it does not include provisions by which effective action can be taken against those who, for political purposes, mislead and instigate others to their undoing. Having regard to these considerations and to the necessity of firm and prompt action against a movement, the object of which is to bring the administration to a standstill, I have deemed it necessary to promulgate an Ordinance, by which Local Governments may, as the necessity is established, be invested with powers to deal effectively with persons who instigate others to withhold the payment of certain lawful dues. I have thought it proper to include within the purview of the Ordinance certain liabilities (for instance, the rent of agricultural land) which, although not included in the dues which form the present announced object of attack by the Congress, have been mentioned by them from time to time as coming within the scope of the civil disobedience movement and would indeed in many parts of the country form the inevitable object of attack if any movement were initiated to withhold payment of revenue to Government.

4. The powers taken under the Ordinance will not be used by Local Governments to modify their revenue policy or to attentuate in any way the concessions by way of suspensions, remissions or otherwise which it is their practice to grant. Nor will the Ordinance be used indirectly to give assistance to landlords in the normal process of realization of rent or to facilitate enhancement of rent. It will be confined strictly to its declared purpose, namely, to prevent instigation in pursuance of a political movement to refuse payments lawfully due. I trust that in taking measures to check at the outset a movement which is intended to disorganise the administration and which must, if successful, damage the whole economic structure of society, I shall have the support of all those who desire to resist a plain threat to orderly progress and stable government.

IRWIN,

Viceroy and Governor General.

297. The **Commissioners** shall, so far as they may consider it necessary to do so for the public convenience, cause such public streets, squares and gardens, as they may from time to time determine, to be watered, oiled or otherwise treated in a suitable manner, and for that purpose may provide such animals, water-carts, materials and other apparatus as they may think necessary.

298. Streets and public places shall be maintained, repaired, protected and otherwise regulated in accordance with the rules contained in Schedule XVI.

POWER TO **Commissioners** TO REMOVE OR ALTER VERANDAH, ETC., OR FIXTURES ATTACHED TO BUILDING WHICH PROJECT, ETC., OVER PUBLIC STREET OR LAND.

299. (*1*) When any verandah, platform or other similar structure or any fixture attached to a building so as to form part of the building, whether erected before or after **these provisions come into force in the town of Howrah,** causes a projection, encroachment or obstruction over or on any public street or any land vested in the

Commissioners, they may, by written notice, require the owner or occupier of the building to remove or alter such structure or fixture.

(*2*) If the expense of removing or altering any such structure or fixture is paid by the occupier of the building, in any case in which the same was not erected by himself, he shall be entitled to deduct any reasonable expense incurred for the purposes of such removal or alteration from the rent payable by him to the owner of the building.

(*3*) If the owner or occupier of the building proves that any such structure or fixture was erected before the first day of June, **1869,** or that it was erected on or after that day with the consent of any municipal authority duly empowered in that behalf, the **Commissioners** shall, after such structure or fixture has been removed, make reasonable compensation to every person who suffers damage by the removal or alteration thereof.

300. (*1*) The **Commissioners** may, after giving notice to him, require any person to remove any wall and may of their own motion remove any fence, rail, post, platform, or other obstruction, projection or encroachment (not being a portion of a building or fixture referred to in section 299) which has been erected or set up, and any materials or goods which have been deposited, in a public street or in or over any drain or aqueduct in a public street, whether the offender be prosecuted under **these provisions** or not;

and the offender shall be liable for the payment of the expense of such removal.

(*2*) When under sub-section (*1*), the **Commissioners** cause any wall to be removed or remove any other obstruction, projection or encroachment from land which forms part of a public street, no compensation shall be payable, but the **Commissioners** shall be bound to provide proper means of access to and from the street if none exists already.

302. (*1*) If the **Commissioners** consider it expedient to prescribe for any public street a building-line or a street alignment, or both a building-line and a street alignment, they shall give public notice of their intention to do so:

Provided that no building-line shall ordinarily be prescribed for any street laid out and made before the commencement of this Act.

(*2*) Every such notice shall specify a period within which objections will be received; and a copy of the notice shall be sent by post to every owner of premises abutting on such street who is registered in respect of such premises in the books of the municipality:

Provided that failure or omission to serve such notice on any owner shall not invalidate proceedings under this section.

(*3*) The **Commissioners** shall consider all objections received within the said period, and shall hear any objector who comes forward within such period as they may fix in this behalf, and may then make an order prescribing a building-line or a street alignment, or both a building-line and a street alignment for such public street.

A register or book with plans attached shall be kept by the **Commissioners** showing all public streets in respect of which a building-line or street alignment has been prescribed, and such register shall contain such particulars as to the **Chairman** may appear to be necessary and shall be open to inspection by any person upon payment of such fee as may from time to time be prescribed by the **Commissioners at a meeting.**

(*4*) A building-line shall not be prescribed so as to extend further back than the main front wall of any building (other than a boundary wall) abutting on the street at its widest part.

(*5*) Every order made under sub-section (*3*) shall be published in the *Calcutta Gazette*, and shall take effect from the date of such publication.

RESTRICTIONS ON ERECTION OF, ON ADDITION TO, BUILDINGS OR BOUNDARY WALLS WITHIN STREET ALIGNMENT OR BUILDING-LINE.

303. (*1*) No portion of any building or boundary wall shall be erected or added to within a street alignment prescribed under section 302:

Provided that the **Commissioners** may, in their discretion, permit additions to a building to be made within a street alignment, if such additions merely add to the height of, and rest upon, an existing building or wall, upon the owner of the building executing, if required to do so by the **Commissioners,** an agreement binding himself and his successors in interest—

(*a*) not to claim compensation in the event of the **Commissioners** at any time thereafter calling upon him or such successors, by written notice, to remove any addition made to any building in pursuance of such permission, or any portion thereof, and

(*b*) to pay the expenses of such removal.

(2) If the **Commissioners** refuse to grant the permission applied for to add to any building on the ground that the proposed site falls wholly or in part within a street alignment prescribed under section 302, and if such site, or the portion thereof which falls within such alignment, be not acquired **or an application for acquisition of the same be not submitted before the Land Acquisition Collector** by the **Commissioners** within six months after the date of such refusal, they shall pay reasonable compensation to the owner of the site.

(3) No person shall erect or add to any building between a street alignment and the building-line without first obtaining the permission of the **Commissioners** to do so :

Provided that it shall not be necessary to obtain permission under this sub-section to erect, between a street alignment and the building-line—

(a) a porch or balcony, or

(b) along not more than one-third of the frontage, an outhouse not exceeding fifteen feet in height.

(4) If the **Commissioners** grant permission under sub-section (3), they may require the applicant to execute an agreement in accordance with the proviso to sub-section (1).

POWER TO **Commissioners** TO TAKE POSSESSION OF, AND ADD TO STREET, LAND SITUATED WITHIN PRESCRIBED STREET ALIGNMENT OR COVERED BY PROJECTING BUILDINGS.

304 (1) The **Commissioners** may at any time, after giving notice to the owner of the land of their intention, take possession of—

(a) any land (abutting on a public street) upon which any portion of any building or wall, projecting beyond the front of the adjoining building or wall, on either side of such first-mentioned building or wall, has collapsed or been demolished or burnt down, and

(b) any land not covered by buildings (including land on which a building has collapsed or been demolished or burnt down) which is situated within a street alignment prescribed under section 302,

after making full compensation to the owner thereof for any direct damage which he may sustain thereby and shall take possession of any land as specified in clause (b) if the owner thereof calls upon them to do so.

(2) Any land taken possession of under sub-section (1) shall forthwith be added to and become part of the said street, and shall vest in the **Commissioners**.

Explanation.—The expression " direct damage," as used in sub-section (1) with reference to land, means the market-value of the land taken and the depreciation, if any, in the ordinary market-value of the rest of the land resulting from the area being reduced in size ; but does not include damage due to any particular use to which the owner may allege that he intended to put the land although such use may be injuriously affected by the reduction of the site.

POWER TO **Commissioners** TO SET BUILDINGS FORWARD TO IMPROVE LINE OF PUBLIC STREET.

305. The **Commissioners** may, upon such terms as they think fit, allow any building or wall to be set forward for the purpose of improving the line of a public street.

Opening, improvement and closing of public streets, squares and gardens.

306. The **Commissioners** may—

(a) lay out and make new streets, squares and gardens ;

(c) turn, divert, or temporarily or permanently close any public street or part thereof, or permanently close any public square or garden ; and

(d) widen, open, enlarge, or otherwise, improve any public street, square or garden.

POWER TO **Commissioners** TO DISPOSE OF A PERMANENTLY CLOSED STREET, SQUARE OR GARDEN.

307. (1) When any public street or part thereof, or any public square or garden is permanently closed under section 306, the **Commissioners** may sell or lease the site of so much of the road-way and foot-path as is no longer required, or the site of the square or garden, as the case may be, making due compensation to, or providing means of access for, any person who may suffer damage by such closing.

(2) In determining such compensation under section 523 **of the Calcutta Municipal Act, 1923,** the court shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction or improvement of any other public street, square or garden, at or about the same time that the public street, square or garden, on account of which the compensation is paid, is closed.

Projected public streets.

PROJECTED PUBLIC STREETS.

308. (1) The **Commissioners** may from time to time prepare schemes and plans of projected public streets, showing the direction of such streets, the street alignment and building-line on each side of them, their intended width, and such other details as may appear desirable.

(2) The width of such projected streets, inclusive of space for foot-paths, shall not be less than **twenty** feet or, in a *bustee*, **twelve** feet :

Provided that—

(a) the **Commissioners** may, for special reasons, reduce the width of any projected street, but not so as to be less than thirty feet or in a *bustee* sixteen feet ; and

(b) this sub-section shall not apply in any case in which the projected street, or any part thereof, runs along an existing street and the **Commissioners** consider it impracticable to widen the street to the extent of forty feet or twenty feet, as the case may be.

PROVISIONS OF SECTIONS 302 AND 303 TO APPLY TO PROJECTED PUBLIC STREETS.

309. The provisions of sections 302 and 303 shall, with all necessary modifications, apply to public streets projected under section 308.

Acquisition of land and buildings.

POWER TO **Commissioners** TO ACQUIRE LAND AND BUILDINGS FOR IMPROVEMENT OF PUBLIC STREETS, SQUARES AND GARDENS.

310. (*1*) The **Commissioners** may acquire—

(*a*) any land required for the purpose of opening, widening, extending or otherwise improving any public street, square or garden, or of making any new public street, square or garden, and

(*b*) the buildings (if any) standing upon such land.

(*2*) The **Commissioners** with the sanction of the Local Government, and after giving due notice of their intention and an opportunity to any objector, who appears within such period as they may fix, to be heard in this connection, may acquire, in addition to any land and buildings acquired under sub-section (*1*), any land outside any proposed street alignment, with the buildings (if any) standing thereupon, which the **Commissioners** may, for any of the purposes mentioned in sub-section (*1*), including the recoupment of the cost or any portion of the cost incurred for any such purposes, consider it expedient to acquire.

Abandonment of acquisition.

ABANDONMENT OF ACQUISITION IN CONSIDERATION OF SPECIAL PAYMENT.

311. (*1*) In any case in which the Local Government have sanctioned the acquisition of land under section 310, sub-section (*2*), the owner of the land, or any person having an interest therein greater than a lease for years having seven years to run, may make an application to the **Commissioners**, requesting that the acquisition of the land be abandoned in consideration of the payment by such person of a fee to be fixed by the **Commissioners** in that behalf.

(*2*) The **Commissioners** shall admit every such application if it reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894 (I of 1894), for making claims in reference to the land :

Provided that unless the application is made by all the persons who have an interest in the land greater than a lease for years having seven years to run, the application shall not be deemed to be admitted unless the person applying undertakes to pay in one instalment the full fee payable under sub-section (*3*) and thereafter pays such fee.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(*3*) If the **Commissioners** decide to admit any such application, they shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, for such period as the **Commissioners** may request, and the **Commissioners** shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(*4*) In fixing the fee to be paid in consideration of the abandonment of the acquisition of the land the **Commissioners** shall, so far as to them may appear to be practicable, fix a sum which in their opinion represents two-thirds of the increment in the value of the land, which will in their opinion accrue to that land as a result of the improvements effected in the locality by the scheme for the purposes of which the acquisition has been sanctioned.

(*5*) Such fee shall be and remain a charge on the land, in respect of which it has been fixed, until the repayment thereof with interest in the manner hereinafter provided and shall be payable by the applicant on or before a date to be fixed by the **Commissioners** in this behalf ; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894 (I of 1894), nor shall such date be a date before that on which the scheme is declared by the **Commissioners** to be completed in so far as it affects such land.

(*6*) Before the date so fixed, the person from whom the **Commissioners** have arranged to accept the said fee, may, if the **Commissioners** are satisfied that the security offered by him is sufficient, execute an agreement with the **Commissioners** either—

(*i*) to leave the said fee outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at a rate not exceeding seven *per cent. per annum*, the said interest to run from the date fixed under sub-section (*5*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest, as may be approved by the **Commissioners**, interest in both cases being calculated at a rate not exceeding seven *per cent. per annum* on the amount outstanding.

(*7*) When the said fee has been paid on or before the date fixed under sub-section (*5*), or when an agreement has been executed in pursuance of sub-section (*6*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(*8*) If the said fee be not paid on or before the date fixed under sub-section (*5*), the Collector shall then proceed to acquire the land.

(*9*) If any sum payable under an agreement executed in pursuance of sub-section (*6*) be not paid on the date on which it is due, or on such later date as the **Commissioners** may in their discretion fix in this behalf, so much of the fee fixed by the **Commissioners** under sub-section (*3*) as is still unpaid, shall be payable on that date, in addition to the said sum.

(*10*) At any time after an agerement has been executed in pursuance of clause (*i*) of sub-section (*6*) any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at a rate not exceeding seven *per cent. per annum*, up to the date of such payment.

RECOVERY OF MONEY PAYABLE IN PURSUANCE OF SECTION 311.

312. When an agreement has been executed by any person in pursuance of section 311, sub-section (*6*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the **Commissioners** (together with interest up to the date of realization, at a rate not exceeding seven *per cent. per annum*), under these provisions ;

and, if not so recovered, the **Commissioners** may, after giving public notice of their intention to do so, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

AGREEMENT OR PAYMENT UNDER SECTION 311 NOT TO BAR ACQUISITION UNDER A FRESH DECLARATION.

313. If any land in respect of which an agreement has been executed, or a payment has been accepted, in pursuance of section 311, sub-section (6), be subsequently required for any of the purposes of **the Bengal Municipal Act, 1884, or the Calcutta Municipal Act, 1923, as in force in the town of Howrah,** the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Acquisition Act, 1894.

Special provisions as to private streets.

MAKING OF NEW PRIVATE STREETS.

314. (1) Any person intending to make or lay out a new private street shall send to the **Commissioners** a written notice, with plans and sections showing the following particulars of the proposed street, namely :—

(b) the arrangements to be made for levelling paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(2) The provisions of **the Calcutta Municipal Act, 1923, as in force in the town of Howrah** as to the width of public streets and the height of buildings abutting thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (1) ; and all the particulars referred to in that sub-section shall be subject to approval by the **Commissioners :**

Provided that the **Commissioners** may allow a private street to be made or laid out of a width less than forty feet but not less than twenty feet, and, if the street is less than two hundred feet in length, the maximum width of such street may ordinarily be taken to be thirty feet instead of forty feet.

(3) Within ninety days after the receipt of any notice under sub-section (1), the **Commissioners** shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(4) Such sanction may be refused—

(i) if the proposed street would conflict with any arrangements which have been made or which are in the opinion of the **Commissioners** likely to be made within a reasonable period, for carrying out any general scheme of street improvement, or

(ii) if the proposed street does not conform to the provisions referred to in sub-section (2), or

(iii) if the proposed street is not designed so as to connect at one end with a street which is already open.

(5) If further information is asked for under sub-section (3), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information, and such orders shall be passed within ninety days of the receipt of such further information.

(6) If within ninety days after the receipt of any notice under sub-section (1), or within ninety days after the receipt of any further information asked for under sub-section (3), the **Commissioners** have not refused sanction to the making of the private street, it shall be deemed that sanction to the same has been granted.

PROHIBITION OF BREACH OF SECTION 314.

315. Except as provided in sub-section (6) of section 314, no person shall make or lay out any street referred to in sub-section (1) of that section—

(b) in contravention of any orders made thereunder.

ALTERATION OR DEMOLITION OF STREET MADE IN BREACH OF SECTION 314.

316. (1) If any person makes or lays out any street referred to in section 314, sub-section (1), without having obtained the sanction of the **Commissioners** under that section, or in contravention of any orders made thereunder, they may, whether or not the offender be prosecuted **hereunder,** by written notice—

(a) require the offender to show sufficient cause, by a written statement signed by him and sent to the **Commissioners** on or before such day as may be specified in the notice, why such street should not be altered to their satisfaction or, if such alteration be impracticable, why such street should not be demolished, or

(b) require the offender to appear before them, either personally or by a duly authorized agent, on such day and at such time and place as may be specified in the notice, and show cause as aforesaid.

(2) If any person on whom such notice is served fails to show sufficient cause, to the satisfaction of the **Commissioners,** why such street should not be so altered or demolished, they may cause the street to be so altered or demolished, and the expenses thereof shall be paid by such person.

LEVELLING, ETC., OF PRIVATE STREETS.

317. (1) If any private street or any part thereof be not levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the **Commissioners,** they may, by written notice to the owner of such private street or the respective owners of the land fronting, adjoining or abutting upon such street or part, as the case may be, from time to time require them to level, pave, metal, flag, channel, sewer, drain and light such street or part.

(2) If such notice be not complied with and the **Commissioners** under section 510, sub-section (2) **of the Calcutta Municipal Act, 1923,** execute the works mentioned or referred to therein, the expenses thereby incurred shall be paid by the owner of such private street or the owners in default, in such proportion as may be settled—

(a) by the **Commissioners,** or,

(b) in case of dispute, by the Court under section 523 **of the Calcutta Municipal Act, 1923.**

POWER TO **Commissioners** TO TAKE OVER PRIVATE STREETS.

318. If any private street which conforms to the provisions referred to in section 314, sub-section (2), be levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the **Commissioners** and if a majority of—

(a) the owners of land or buildings in such street, or

(b) the owners of the street, or

(c) the owners who have paid the expenses referred to in section 317, sub-section (2),

signify in writing their consent thereto, the **Commissioners** shall declare the same, by written notice put up in any part of such street, to be a public street, and thereupon the same shall become a public street and shall vest in the **Commissioners**:

Provided that, where a private street has been in existence for not less than thirty years and is used by the people of the locality as a thoroughfare, the **Commissioners** may declare such street to be a public street even though it does not strictly comply with the provisions of this chapter, if—

(a) the owners of lands and buildings in such street, or

(b) the owners of the street,

signify in writing their consent thereto.

(2) The **Commissioners** may from time to time prescribe a scale of fees of licensed building surveyors in respect of any class of buildings, to be made applicable in the absence of a written contract to the contrary.

POWER TO **Commissioners** TO DECLINE PLANS, ETC., MADE BY PERSONS OTHER THAN LICENSED BUILDING SURVEYORS.

328 (1) Save with the special permission of the **Commissioners** no person shall use a building or a substantial part of a building erected for use as, and belonging to, any one class of buildings, as a building of any other class in such a manner that the building or part thereof so used will not be in conformity with **these** provisions, or of any rules or by-laws made thereunder, relating to buildings of that other class :

Provided that no change made by **these provisions** in the classification of buildings as in force under the Calcutta Municipal Act, 1899 (Ben. 340. When the owner of a *bustee* has been required under section 338 to prepare a plan, no new building which is a hut shall be erected and no hut shall be added to within the *bustee* until a plan has been prepared and approved under that section or under section 339.

PROHIBITION OF BUILDING CONTRARY TO STANDARD PLAN.

341. When a standard plan has been approved for any *bustee* under section 338 or section 339, no new building which is a hut shall be erected and no hut shall be added to in such *bustee* unless the hut, or the portion to be added, as the case may be, occupies a site, or portion of a site, marked in the standard plan as the site for a hut.

(*a*) by reason of the manner in which the huts are crowded together, or

(*b*) for any other reason,

is in such an unhealthy condition that the procedure provided by the foregoing sections of this chapter would be too dilatory to meet the emergency,

they may, after giving notice to the owners of the *bustee*, cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the **Municipality of Howrah** or a person holding the diploma of Public Health or having such other qualifications as may be prescribed by the **Commissioners** in this behalf, and the other an engineer. (*b*) annex to the report a plan approved by them as a proper standard plan of such *bustee*, and

(5) A report (together with the schedules annexed thereto) made and signed under this section by any two persons appointed under sub-section (1) shall be sufficient evidence of the result of such inspection.

APPROVAL BY **Commissioners** OF STANDARD PLAN AND SCHEDULES ANNEXED TO SUCH REPORT.

345. (1) The **Commissioners** shall consider every report (together with the plan and Schedules A and B annexed thereto) made under section 344, and, after hearing the objections (if any) of the owner of the *bustee* in respect of which the report has been made, and of any owner of any hut which is required to be demolished or altered and of the owner of any masonry building which is to be dealt with under sub-section (4) of section 344, may approve such plan and schedules after making such modifications (if any) therein as they may think fit.

requiring them to carry out all or any of the improvements specified in that schedule or any portion of such improvements.

PAYMENT OF EXPENSES INCURRED IN CARRYING OUT IMPROVEMENTS.

347. When any improvements required by a notice under section 346 are carried out by the **Commissioners** under section 510 **[of the Calcutta Municipal Act, 1923,** all expenses incurred thereby including such reasonable compensation as the **Commissioners** may think fit to pay to the owners or occupiers of huts removed,

shall be paid by the owner of the *bustee* to the **Commissioners** and shall constitute a charge upon such *bustee* :

Provided that, if it appears to the **Commissioners** that any such owner is unable, by reason of poverty, to pay such expenses or any portion thereof, in the case of expenses relating to work which should in the opinion of the **Commissioners** have been done by the owners or occupiers of huts within the *bustee*, they may order the same or any portion thereof to be paid out of the Municipal Fund, and in the case of expenses which should be paid by the owner of the *bustee*, they may order the same or any portion thereof to be advanced out of the Municipal Fund, but thereafter to constitute a charge upon such *bustee*.

(*2*) When any such resolution has been passed, the **Commissioners** shall make a plan for the improvement of the said *bustee* or portion thereof, together with such estimates as may be necessary for a due understanding of the same, and may then purchase or acquire the said *bustee* or portion thereof, and such plan shall be deemed to be the standard plan of the *bustee*.

(*a*) sell or let the same or part thereof to any person for the purpose and under the condition that he will, as respects the land so sold or leased to him, carry out the improvements shown in such standard plan, or

(*b*) one-third of such area as open lands not to be built upon, whether such open lands be common ground, streets, passages or spaces behind a line of huts.

(*2*) In calculating the said proportions of one-fourth and one-third of any such area, no tank situated therein that has not been filled up shall be taken into account.

354. (*1*) Every street or passage in a *bustee* which is shown in the standard plan approved under this chapter for that *bustee*, and which is not already a public street, shall, unless the **Commissioners** and the owners of the land on which such street or passage is situated otherwise consent as provided in section 318, be deemed to be a private street; and the portion thereof which falls on the land of each owner shall belong to such owner :

(*2*) From the date of such notice no application shall be entertained for erecting on such land any new building which is a hut or adding to any hut standing thereon.

(*3*) Such owner shall, within six months after the date of such notice, or within such further time as the **Commissioners** may from time to time allow, remove all huts standing on such land ; and if he does not do so, the notice shall be deemed to be cancelled.

(2) When the land within such *bustee* or area is owned by more owners than one, each owning one or more separate plots of such land, such alignments shall, as far as practicable, be so prescribed as not to occupy, within any such plot, more than one-fifth of the area thereof and shall not ordinarily be less than two hundred and fifty feet apart.

(3) If, in any such plot, more than one-fifth of the area thereof is occupied by such alignments, the **Commissioners** shall pay reasonable compensation to the owner of the plot:

Provided that no such compensation shall be paid in respect of any such plot as long as any hut or other structure other than a masonry building is left standing within any such alignment in the plot.

RULES AS TO THE USE OF BUILDING-SITES AND THE EXECUTION OF BUILDING-WORK.

[*See sections 319, 330, 331, 363 and 364.*]

Part I. –Building-sites.

CONDITIONS AS TO USE OF BUILDING-SITES.

1. No piece of land shall be used as a site for the erection of a building—

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the **Commissioners** may consider practicable ; and

(*2*) if the site is within thirty feet of a tank, unless the owner takes, or satisfies the **Commissioners** that he will take such order as will prevent any risk of the drainage of the building passing into the tank ; and,

(*3*) if the site is a filled up tank, or has been filled up with, or used for depositing rubbish, offensive, matter or sewage, unless the **Commissioners** have caused the site to be examined and granted a certificate to the effect that it is, from sanitary and engineering points of view, fit to be built upon ; and,

(*4*) if the building to be erected is a public building, a dwelling-house or a hut intended for human habitation, unless the site is certified by the **Commissioners** to be dry, and well-drained, or unless the **Commissioners** are satisfied that it is capable of being well-drained and that the owner will take the necessary steps to drain it.

CERTIFICATE AS TO CORRECTNESS OF PLANS OF A PREVIOUSLY EXISTING BUILDING AND FEES THEREFOR.

2. (*1*) Any person who intends to erect any building upon a site on which a building has been previously erected, whether before or after the **date on which these provisions come into force in the town of Howrah,** may, before commencing to erect his intended building, cause to be prepared plans showing the extent of the previously existing building in its several parts (or, in the event of such building having been taken down before the **date on which these provisions come into force in the town of Howrah,** or having been accidentally destroyed, the best plans available under all the circumstances of the case), and may cause such plans to be submitted to the **Commissioners** who shall (if reasonably satisfied with the evidence of their accuracy) certify the same ; and such certificate shall for the purposes of these rules be taken to be conclusive evidence of the correctness of the plans.

(*2*) The **Commissioners** when granting a certificate under this rule, may charge such fees, not exceeding ten rupees for any one building, as they may think fit.

Part II.—Buildings generally.

HEIGHT.

3. (*1*) If a building is situated at the side of a street, no portion of the building, except open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary line drawn across the street at an angle of forty-five degrees with the horizontal, such lines being drawn from the side of the street which is the more remote from the building in question, from a height of two feet above the centre of the street :

Provided as follows —

(*i*) where the said street is joined at an angle by another street facing the building, or where the street in which the building is situated terminates in front of the building, the height of that portion of the building which is opposite the street facing it measured from two feet above the centre of the street, shall in the former case, not exceed the height which would be permissible if the building abutted on or were situated on the side of a street equal in width to the width of the street on which it abuts or on the side of which it is situated *plus* half the width of the street facing it, and in the latter case, the height of the building shall not exceed the height which would be permissible if the building abutted on or were situated on the side of a street one-and-a-half times the width of the street terminating in front of it ;

(*ii*) nothing herein contained shall affect the erection of a four-storeyed building abutting upon, or situated at the side of a street of not less than forty-five feet in width, if such building, including the parapet wall and the plinth, does not exceed fifty-six feet in height ;

(*iii*) nothing herein contained shall affect the erection of a building abutting upon, or situated at the side of, a street of not less than sixty feet in width, if such building does not exceed eighty feet in height ; and

(*iv*) no building exceeding eighty feet in height shall be erected without the special permission of the **Commissioners** who in granting such permission, may impose such conditions as they may think proper for the safety of the public and the safety and convenience of persons occupying the building.

Explanation.—If a building be placed at the edge of the street, its height, measured from two feet above the centre of the street, and excluding parapets as aforesaid, shall not exceed the average width of the street facing the site ; but, if the building or one or more of its stroreys be set back, the height of the building may be increased, subject to the condition that no portion of the building, after the height is increased intersects any of the aforesaid lines.

(*2*) In the case of a new building erected on any portion of the site of the whole or part of a building in existence at the **time these provisions come into force in the town of Howrah,** the angle at which the lines referred to in sub-rule (*1*) are to be drawn shall be fifty-six-and-a-half degrees instead of forty-five degrees :

Provided as follows —

(*i*) the height allowed under this sub-rule shall in no case exceed thirty-six feet, and

(*ii*) except with the special permission of the **Commissioners,** nothing contained in this sub-rule shall authorize the erection of a new building so as to make any portion of it higher than any building which at the **time these provisions come into force in the town of Howrah,** was standing on the same portion of the site.

(3) Notwithstanding anything contained in sub-rule (*1*) or sub-rule (*2*), the **Commissioners** may, by

order published in the *Calcutta Gazette*, declare that, in any street or portion of a street, not less than twelve feet in width, which is specified in the order, the erection of two-storeyed buildings not exceeding twenty-eight feet in height excluding two feet for the plinth and excluding open or balustraded parapets not more than four feet high, will be permitted without complying with the requirements of those sub-rules.

(4) If a building is situated on a corner plot so as to abut upon more than one street, the narrower of such streets shall, for the purpose of regulating the height of the building, be deemed to be of the same width as the wider street to a distance of fifty-five feet from such wider street.

(5) Notwithstanding anything contained in sub-rule (1), (2) or (4)—

(a) a building of not more than one storey and not exceeding twelve feet in height (excluding two feet for the plinth) above the centre of the street, and

(b) if, in any street which is less than twelve feet in width, the owner of any building-site abutting on the street makes a free gift to the **Commissioners** of all land comprised within such site, which falls within six feet of the centre line of such street, then a two-storeyed building not more than twenty-eight feet high,

may be erected without complying with the requirements of the said sub-rules.

(6) For the purposes of clause (b) of sub-rule (5) of this rule and of clause (b) of sub-rule (4) of rule 30—

(a) the **Commissioners** may prescribe a centre line for any street which is less than twelve feet in width, and

(b) when such centre line has been prescribed, the side of the street shall, for the purposes of sub-rule (1), be deemed to be an imaginary line drawn six feet from such centre line.

LEVEL OF FLOOR.

4. The floor or lowest floor of every new building erected from the ground-level shall be constructed as such level as will admit of—

(a) the construction of a drain sufficient for the effectual drainage of the building and placed at such level as will admit of the drainage being led into some municipal sewer or drain at the time existing or projected, and

(b) the provision of the requisite communication with some sewer into which the drainage may lawfully be discharged at a point in the upper half of such sewer or with some other means of drainage into which the drainage may lawfully be discharged.

(2) The **Commissioners** may, by written notice, require the owner of a new building, more than sixty feet in height or comprising four or more storeys, erected after the **date on which these provisions come into force in the town of Howrah,** to provide a lift or some other similar mechanical contrivance for carrying persons from one floor to another.

CERTAIN BUILDINGS NOT TO BE ERECTED WITHIN SIX FEET OF A SERVICE-PRIVY.

6. No new public building or new building which is, or is likely to be used as a dwelling place or a kitchen or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business shall be erected within six feet of any service-privy or service-urinal.

(3) The levels of the foundation shall be such as the **Commissioners** may consider satisfactory.

PLINTH.

(*3*) Notwithstanding anything contained in sub-rules (*1*) and (*2*), in any case in which it appears to the **Commissioners** that any public improvements which may render necessary the acquisition of the site of a proposed building or any part thereof are desirable and expedient, they may withhold sanction to the building plans submitted in respect of such building for a period not exceeding three months from the date of such submission.

REMEDY IF **Commissioners** DELAY GRANT OR REFUSAL OF PERMISSION.

58. If within the period prescribed by rule 57, the **Commissioners** have neither granted nor refused to grant permission to execute any work, such permission shall be deemed to have been granted: and the applicant may proceed to execute the work, but not so as to contravene any of **these** provisions or of any rules or by-laws made **hereunder**.

GROUNDS ON WHICH PERMISSION TO ERECT MASONRY NEW BUILDING MAY BE REFUSED.

59. The only grounds on which permission to erect a new building (other than a hut) may be refused are the following, namely:—

(*2*) that the application for such permission does not contain the particulars or is not prepared in the manner prescribed in this schedule;

(*4*) that any of the documents referred to in rule 52 have not been signed as prescribed in rule 54;

SPECIAL POWERS TO **Commissioners** TO SUSPEND OR GRANT PERMISSION TO ERECT A MASONRY BUILDING OR CONVERT HUTS, ETC., INTO A MASONRY BUILDING.

63. Notwithstanding anything contained in rule 59—

(*a*) if any street shown in the site-plan is an intended private street, the **Commissioners** may, in their discretion, refuse to grant permission to erect a masonry building or to convert one or more huts or temporary structures into a masonry building until the street is commenced or completed, and

(*b*) the **Commissioners** may for special reasons grant permission to erect a masonry building, or to convert one or more huts or temporary structures into a masonry building, on any site without reference to its position in relation to any street.

LAPSE OF PERMISSION, IF NOT ACTED UPON WITHIN THREE YEARS, OR, IF GRANTED BEFORE A CERTAIN DATE EXCEPT IN CERTAIN CIRCUMSTANCES.

64. (*1*) If the erection of new building (other than a hut) is not commenced, and a substantial portion of it is not completed, within three years after the date on which permission was given to execute the work, the work shall not be commenced or continued until a fresh application has been made and a fresh permission granted under this schedule.

(*2*) At any time before the expiry of three years from the date on which such permission was given, the person to whom it was granted may apply to the **Commissioners** for a certificate that the building has been commenced and a substantial portion of it already completed; and the **Commissioners** shall thereupon cause the said building to be inspected and, if they consider that a substantial portion of it has been completed, they shall grant a certificate to that effect.

(*3*) If any masonry building, permission to erect which was granted before the **date on which these provisions come into force in the town of Howrah,** is not wholly completed within three years from the **said date**, the said permission shall be deemed to have lapsed, and any work done thereunder, after the said three years, shall be deemed to have been done without permission:

Provided that the **Commissioners** may, for special reasons, extend the said period of three years.

POWER TO **Commissioners** TO CANCEL PERMISSION ON THE GROUND OF MATERIAL MISREPRESENTATION BY APPLICANT.

65. If, at any time after permission to erect any masonry building has been given, the **Commissioners** are satisfied that such permission was granted in consequence of any material misrepresentation or fraudulent statement contained in the application made under rule 52, or in the plans, elevations, sections, or specifications submitted therewith in respect of such building, they may cancel such permission, and any work done thereunder shall be deemed to have been done without permission.

REMEDY IF **Commissioners** DELAY GRANT OR REFUSAL OF PERMISSION.

85. EDUCATION DEPARTMENT.

DARJEELING, THE 6TH JUNE 1930.

RESOLUTION.—No. 567T.Edn.

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

By Government Resolution No. 965T.Edn., dated the 26th October 1920, as modified by Resolution No. 275Edn., dated the 8th February 1922, a Selection Committee was appointed to advise Government on the selection of candidates for direct appointment to the Indian Educational Service and Provincial Educational Service (now called the Bengal Educational Service) and certain rules were framed to regulate the selection of candidates and the maintenance of a panel of approved candidates. Since then all recruitment to the Indian Educational Service has been stopped as a result of the decision of the Government of India on the Lee Commission Report and it has been decided to replace that service by a new Superior Educational Service of the provincial grade. In regard to the Bengal Educational Service, in the Appointment Department notification No. 3099A., dated the 22nd March 1928, the Local Government, in exercise of the powers conferred by rule XIIA of the Civil Services (Governors' Provinces) Classification Rules and rule 3 (2) (*a*) of the Civil Services (Governors' Provinces) Delegation Rules, 1926, made by the Secretary of State for India in Council under section 96B (2) of the Government of India Act, have constituted a permanent Selection Board for Bengal to advise upon the first appointment of officers to Provincial Services and have laid down rules regulating the constitution and function of the Board. Again, in the Appointment Department notification No. 7183A., dated the 22nd May 1930, the Local Government have published certain rules to regulate appointments to Provincial Services, known as the Bengal Provincial Services Recruitment Rules, and these rules require that recruitment to a Provincial Service shall be made on the result of a competitive examination or by promotion or by selection, after consulting the Selection Board. As under the latter rules all first appointments to the Bengal Educational Service, or to the new Superior Educational Service on its constitution will have to be made on the advice of the permanent Selection Board, it is no longer necessary to retain the Selection Committee constituted in 1920 or to maintain a panel of approved candidates for direct appointment to those services. The Government of Bengal (Ministry of Education)

accordingly direct that the Selection Committee be dissolved with effect from the date of this order.

Order.—Ordered that the Resolution be published in the *Calcutta Gazette* for general information.

Ordered also that a copy of the Resolution, be forwarded to the Chairman, and the Members of the Selection Committee and to the Secretary to the Committee for information.

Ordered also that a copy be forwarded to the Director of Public Instruction, Bengal, for information and communication to the Governing Bodies of Government Colleges.

By order of the Government of Bengal
(Ministry of Education),

A. J. DASH,

Secy. to the Govt. of Bengal.

The 4th June 1930.

1. A competitive examination for admission to the Indian Audit and Accounts Service, the Military Accounts Department, the Imperial Customs Service, and the Indian Railway Accounts Service, shall be held in India at such time as the Governor General in Council may direct.

2. The maximum number of candidates to be admitted to the examination may, at the discretion of the Governor General in Council, be limited to such number, not being less than 200, as the Governor General in Council may decide. If the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination, having regard to the suitability of the applicants for the Services in question.

3. (i) A candidate shall apply to be admitted to the examination before such date, and in such form and manner as the Governor General in Council may prescribe.

(ii) If a candidate is employed at the date of his application in Government service he shall make application through the head of his Department to the Local Government if he is employed by the Local Government, or to the Government of India if he is employed in a department under the control of the Government of India.

(iii) If he is not in such service, he shall apply to the authority of the area in which his parents reside at the time of the application or have previously resided for a period of not less than three years, or in which he has himself resided (otherwise than as a student at a University only) for the like period.

The authority of the area to whom application shall be made, shall, if the application is based on residence in a Governor's province, be the Local Government of that province;* if it is based on residence in Coorg, the North-West Frontier Province, Delhi or Ajmer-Merwara, be the Chief Commissioner concerned, and, if it is based on residence in a State in India, be the Political Officer or Agent through the Durbar.

(iv) No candidate shall make more than one application in any year.

4. A candidate must be a male who is either (i) a British subject of Indian domicile, who was, and whose father and mother were, born within His Majesty's dominions and allegiance, or (ii) a British subject of Indian domicile whose father was at the time of the candidate's birth and still is (or if dead, continued until his death to be) a British subject or a subject of a State in India, or (iii) a ruler or a subject of a State in India in respect of whom the Governor General in Council has made a declaration under section 96-A of the Government of India Act.

6. A candidate must be in a good mental and bodily health and free from any physical defect likely to interfere with the efficient discharge of his duties and a candidate who is found, after examination by a Medical Board, not to satisfy these requirements, will not be accepted for admission to the examination.

7. A candidate must satisfy the Governor General in Council that his character is such as to qualify him for employment in the public service. No candidate who is in the employment of Government will be admitted to the examination unless the report from the head of his Department as to his character and attainments is satisfactory.

8. A candidate must hold a Degree of a University* approved by the Governor General in Council or the Senior Diploma of the Mayo College, Ajmere, or the Government Diploma in Accountancy.

In exceptional cases the Public Service Commission may, on the recommendation of the Local Government, treat, as a qualified candidate, a candidate who, though not possessing any of the foregoing qualifications, has passed examinations conducted by other institutions of a standard which, in the opinion of the Commission, justifies his admission to the examination.
